## About Me

---

Brief introduction highlighting career aspirations in AI/ML.

Summary of key skills (emphasize Python, relevant libraries if added, data structures, algorithms).

## Education

---

10th (2020) and 12th (2022) from RK Education Center (Topper in both)

B.Tech (2023-27) from Allenhouse Institute of Technology (Mention specialization if any)

## Projects

---

{'title': 'Screen Analyser Chrome Extension', 'description':  
"Detailed description of functionality, technologies used, and  
impact. Quantify achievements whenever possible (e.g.,  
'Improved workflow by X%').", 'link': 'Github link (if available)'}

{'title': 'YouTube Automated Pipeline', 'description': "Detailed description emphasizing the AI/ML aspects (if any), technologies used, and achievements. Quantify achievements whenever possible (e.g., 'Automated X% of the video upload process').", 'link': 'Github link (if available)'}

{'title': 'Additional AI/ML Project (Recommended)', 'description': 'Description of a project involving AI/ML algorithms or libraries. If no existing project, include a personal project.', 'link': 'Github link (if available)'}

## Skills

---

Python (mention specific libraries like NumPy, Pandas, Scikit-learn if learned)

Java

C

Other relevant skills (e.g., data visualization, machine learning algorithms)

## Certifications

---

Python Certificate (Detailed description including course name, grade, and relevant modules)
