Summary

- Highly motivated and results-oriented aspiring AI/ML Developer with a strong foundation in programming (C, Python, Java) and a proven track record of academic excellence. Experienced in building automated systems and analyzing data. Eager to apply my skills to challenging projects and contribute to a dynamic team.

Education

- B.Tech (2023-2027), Allenhouse Institute of Technology
- 12th (2022), Rk Education Center (Topper)
- 10th (2020), Rk Education Center (Topper)

Projects

- **YouTube Automated Pipeline:** Developed a Python-based pipeline using Gemini to generate scripts for 5-second YouTube videos based on story descriptions. The pipeline automatically uploads videos after approval. [Add GitHub link if available]
- **Screen Analyser Chrome Extension:** Created a Chrome extension to capture and analyze screenshots. [Add GitHub link if available and expand on analysis techniques]

Skills

- Python
- Java
- C
- Chrome Extension Development
- Data Analysis
- Automation
- Scripting

Achievements

- Topper in 10th and 12th Standard
