Summary

- Highly motivated and results-oriented aspiring AI/ML developer with a strong foundation in programming and a proven track record of academic excellence. Seeking an entry-level position to leverage my skills and contribute to innovative projects.

Education

- B.Tech (2023-27), Allenhouse Institute of Technology
- 10th (2020), Rk Education Center (Topper)
- 12th (2022), Rk Education Center (Topper)

Skills

- Python
- Java
- C
- Google Chrome Extension Development
- YouTube API Integration
- Gemini API (mention specific use case)
- Data Analysis (add if applicable from projects)
- Machine Learning (add specific algorithms/libraries if applicable)
- Deep Learning (add specific algorithms/libraries if applicable)

Projects

- **Screen Analyzer Chrome Extension:** Developed a Chrome extension to capture and analyze screenshots. [Link to GitHub repository if available]
- **Automated YouTube Pipeline:** Created an automated pipeline using Gemini API to generate scripts from video descriptions, produce 5-second video clips, and upload them to YouTube upon approval. [Link to GitHub repository if available, quantify results: e.g., 'Reduced video production time by X%']

Certifications

- Python Programming Certification [Specify certifying body and relevant skills gained from the PDF content, if available]
