Summary

- Highly motivated and results-oriented B.Tech student with a strong foundation in programming and a passion for AI/ML. Proven ability to design, develop, and implement software solutions, as demonstrated by successful completion of projects involving automation and data analysis. Seeking an entry-level AI/ML developer role to leverage my skills and contribute to innovative projects.

Education

- B.Tech (2023-2027), Allenhouse Institute of Technology

- 12th (2022), RK Education Center (Topper)

- 10th (2020), RK Education Center (Topper)

Skills

- Python

- Java

- C

- Chrome Extensions Development

- API Integration (Gemini API implied)

- Automation

- Data Analysis (contextual from projects)

Projects

- {'project_name': 'Screen Analyzer Chrome Extension', 'description': 'Developed a Chrome extension to capture and analyze screenshots. [Elaborate on the analysis techniques used, if any. Mention specific technologies used.]'}

- {'project_name': 'Automated YouTube Pipeline', 'description': 'Created an automated pipeline using Gemini API to generate scripts for 5-second YouTube videos, obtain approvals, and automatically upload them based on story descriptions. [Specify technologies and processes used, highlighting AI/ML related aspects if any.]'}

Certifications

- Python Certification [Provide details from the certificate if available, including institution and specific skills gained.]

Awards and Recognition

- Topper, 10th Grade
- Topper, 12th Grade
